

TABLE OF CONTENTS

Preface

Keynote Papers

Mt. Merapi Disaster Risk and Thoughts on Its Sustainable Disaster Management <i>D. Legono</i>	1
Lessons We Have Learned for the Last Decade through the Enactments of the Laws with Severe Punishments for Drivers under Influence of Alcohol <i>Takashi Nakatsuji</i>	9

Structural Engineering

Influence of Water Absorption on Properties of AAC and CLC Lightweight Concrete Brick <i>Antoni, R. Jos, M. M. Lukito</i>	15
Confinement Effects on High-Strength Concrete Columns Subjected Eccentric Loading <i>Antonius</i>	21
Experimental Study of Mechanical Anchorage for Strengthening Bamboo Reinforced Concrete Beam-Column Joints <i>B. Sri Umniati, Sri Murni Dewi, Agoes Soehardjono M. D.</i>	27
An Application of Pulley-Cable Element in Solving Form Finding Problem for Cable-Supported Structures <i>Dang Dang Tung, Nguyen Tang Thanh Binh</i>	33
Studies and Rehabilitation Works on Sewu Temple World Heritage Site after Earth Quake Disaster of May 27th, 2006 <i>Djoko Sulistyono</i>	41
Properties of Environmentally-friendly Concrete Bricks under Different Curing Regimes <i>D. Hardjito, Antoni, A. A. Chandra, A. Pratomo</i>	47
The Structural Dynamic Behavior of Building with Asymmetric Plan and Dilatation by Means of Microtremor Analysis (A Case Study on Dental Clinic Building of GMU) <i>Halisa, Henricus Priyosulistyo</i>	53
Application of Finite Element Model Updating in Damage Detection of Offshore Jacket Platforms Using Particle Swarm Optimization <i>H. Malekzhehtab and A. A. Golafshani</i>	61
Development of Sustainable High Performance Grade 100 Concrete Incorporating Rice Husk Ash <i>H. B. Mahmud and S. Bahri</i>	69
Flexural Strength of CFRP Box Beams with Different Laminate Structures <i>H. Sakuraba, T. Matsumoto, T. Hayashikawa</i>	77
